Mr. Josh Arenson
Richmond Town Manager
Bridge Street
Richmond, VT. 05477

Dear Mr. Arenson,

Please convey to the town Select Board my interest in serving on the Town Center & Library committee.

I've lived in the village with my wife for almost 20 years, and we have a young son, so I have an abiding interest in the current and future state of our community assets.

Currently, I manage healthcare construction projects where I've developed a number of relevant skills including space planning; project budgeting; MEP systems analysis; familiarity with I.T. needs & requirements; as well as the ability to read construction documents and a variety of other related skills. I've also helped a number of non-profit organizations develop, build and/or renovate their facilities.

I hope that my participation on the committee would help Richmond identify and prioritize their facilities options so that the Town Center and Library can serve the community well for the foreseeable future.

Thank you for your time and consideration.

Sincerely,

David M. Healy
